TIPS FOR MEAT SHOPPING

Do you know how to buy a tender cut of meat or pork? Let G. W. Hobbs, packing plant manager of the Lykes Bros., at Tampa, tell you. Here's what he says:

Meat: If you're buying a steak or round, look for threads of fat through the meat. This shows that the meat is from an animal that has been well-fed or pastured. Examine the bones. If hard and brittle the meat is from an old animal. Try to be-

der; the bones should be soft and not splinter when cut.

Don't buy meat just because it's a flaming red color. The preferable color is a pinkish red. Meat discolors quickly after it is cut and some of the tenderness in the butcher's icebox may be almost blank.

The "cover" or adding of fat around a steak or roast should be firm and cling tightly to the meat. A good steak also is "tight" or well-rounded out when cut.

Pork: No problem here. The smaller the chops the more tender they are. The bigger the chops, the older the hog and tougher the meat.

And don't condemn your fate if you happen to get a "tough piece of meat." There is more sustenance in a tough piece of "tough" beef than in the tenderest fillet mignon because the strength of the meat has not been dissipated into fat. —Miami News.

Kilgore Seeds

Have won a warm place in the hearts of Lake Region Farmers. Again this season, as in years gone by, more and more farmers in this section are calling on Kilgore for time-tested seeds.

At times it has been a serious job to care for all the needs of the farmers in this section—but, we have left no stone unturned in an effort to satisfy the wants of all of our valuable patrons.

In the future we will continue to meet the needs of those who have made this section the outstanding agricultural area of America.

TOO LATE TO CLASSIFY

By Russell Key

Determined to advance the welfare of Florida's educational system, Governor Milton Caldwell, working in full harmony with Governor Holland, has called on a group of distinguished citizens to determine the needs of Florida schools and work out a program designed to meet those needs.

Forming finance the first big problem to be met, Caldwell urged the committee to give this first consideration and laying a program to the 1945 legislature that would offer a practical solution.

Dr. Edgar L. Marplot, director of the State Department of Education, outlined some

of the most serious problems as follows:

1. Most of the wealthy counties have 25 to 30 times more income per pupil from each mill of tax revenue than the poorest counties.

2. Some counties, most of them poor, have nearly twice as many children per 1,000 population as other counties. The rich counties get richer, and the poor counties get more children.

3. Some doubt that all counties are assessing property at a fair value, but it is possible to make an accurate check.

4. Under present conditions many poor counties are paying less than half as much to teachers as wealthy counties; most of them have only eight months school term; their teachers are less well trained, yet they are being paid three to four times as much in mileage as the wealthy counties.

5. Florida is the only state that has not set up some plan to overcome these inequalities.

6. Considering the problem of school finance, Caldwell pointed out that it represents a tremendous burden upon the taxpayers and he said the taxpayer was entitled to quality returns for his money and urged that the committee keep this in mind.

If we have no regard for a complex answer to a simple question," Caldwell said. "I urge you to keep close to the ground. Study financial facts, then select what you think are the greatest deficiencies, and by use, whip them and get them behind you, then go on to others. Attack a simple question and make your answer simple."

That sort of straight from the shoulder talk from our Governor drew a warm and responsive appeal to citizens and taxpayers. It is the kind of down to earth common sense point of view that people want in their chief executive.

Based on the statewide com-

mittee to work on the school problem were the following: Mrs. W. H. Beckman of Miami, Allen C. Grider of St. Petersburg, S. Kenrick Guernsey of Jacksonville, Mrs. Kathryn Abbey Hanna of Winter Park, Marion T. Gaines of Pensacola, Al B. Block of Tallahassee, F. N. Bailey of Sebring, Dr. Jack Anderson of Gainesville, Senator N. Ray Carroll of Kissimmee, Senator Harrison E. Barringer of Sarasota, Cecil H. Simpson of Monticello, Leo W. Larky of Punta Gorda, Mrs. H. H. Wedgworth of Belle Glade, E. A. Pierce of Barter and A. W. Litagich of Tampa.

Governor Speman, Holland and State Superintendent of Public Instruction, Colin English, have placed all the facilities at their command at the disposal of the newly appointed committee, and in accepting them Caldwell urged the committee to maintain its independence of thought and action. "You don't need to borrow eggs from anyone," he said earnestly. "We need fresh ideas." He

NOTICE OF APPLICATION FOR TAX DEED

CLERK OF COURT, COURT OF PALM BEACH COUNTY, FLORIDA
November 23-24 Dec. 1, 1944

said that he thought the only educational matters to go before the legislature are those having to do with finances as others can be corrected without legislative authority.

Both Governor Holland and Caldwell expressed the opinion the committee should remain active through the next four years and expressed the belief that much

could be expected of it during that time.

Florida's finances are in very good shape and this will be helpful in meeting the financial problem. Governor Holland pointed out that it might be well to anticipate a drop in revenue now going to schools from automobile tags, but despite the war such revenues have held up expenditures.

so far as have others that were expected to fall off when the state budget was made up two years ago.

The manner in which Caldwell has gone about this problem he spoke what may be expected from him in the direction of the affairs of state during the next four years, and the outlook is gratifying.

THOUSANDS OF ARMY VEHICLES

USE SINCLAIR LUBRICANTS

In saving wear and avoiding breakdown the U. S. Army uses Sinclair lubricants in many "Jeeps", tanks and other vehicles. Your Sinclair Dealer has the same quality lubricants to reduce wear in your car.

To save engine wear he has Sinclair Opaline Motor Oil. Opaline stands up better, and lasts longer because it is not only de-waxed but also de-jellied. Play safe, have your Sinclair Dealer drain and refill your crankcase with Opaline every 1,000 miles.

OIL IS AMMUNITION—USE IT WISELY

One of Your 600,000 Post-war Prospects

Soon he is going to retire. Then he will be free to do those things he's always wanted to do—travel, fish, kind a garden, and perhaps move to a home on the East Coast of Florida.

It is estimated that over 600,000 individuals in the United States are now eligible for retirement. Each year, more than 200,000 others are reaching retirement age.

Some have substantial savings and investments to supplement their retirement income. Many are excellent prospects for a home in your community after the war.

They would like to settle in a place where the winters are less severe, where living costs are reasonable, where building or buying a little home is within their means.

They will also want a place that can be easily and inexpensively reached by train, where relatives and friends can run down to visit them.

Good railroad service, always there when you want it, constantly brings such prospects as these within easy reach. This is one way in which the East Coast of Florida has grown in the past and will continue to grow in the post-war future.

THANKSGIVING

This is the time of year when
folks up north have gathered
their harvest and are ready to
give thanks. That is what Thank-
sgiving is all about.In Palm Beach County we give
thanks at the beginning of a new
season. We give thanks because
the hot summer has gone. We give
thanks because the new fall crops
are coming into their own.Did you ever stop to think that
we are really ahead of the Nation-
al program on Thanksgiving?
We think it is wonderful to have
it thus. With every fall crop we
are setting the pace for the farm-
ers of America.The job the Palm Beach County
farmers are doing makes
Thanksgiving a real day to us.**Jax**
A Premium Beer
But NOT
Premium-Priced● JAX, the Drink of
Friendship, uses the same
fine malt that's used by
other top-quality Ameri-
can beers!

● JAX uses the same fine hops!

● JAX uses only first-class materials—and they come
from the same sources that supply the materials to
leading brewers everywhere.● Further, JAX is brewed by highly skilled brew-
masters who have had far more than average experience.
The master brewers who make JAX have more than a
century of combined experience in brewing fine beer.● As you can see, JAX is a premium beer. But it
does not sell at a premium price because JAX is never
shipped long distances and therefore no heavy shipping
costs have to be included in the cost to make it sell at a
"premium price". Incidentally, the less beer travels,
the better it is.● Remember this—JAX is a premium beer but is not
"premium priced". You simply can't buy better beer no
matter what you pay!Say JAX!
you can't buy
better beer
at any price!

reasons for buying
War Bonds**

to help him now

to help us later

I THINK Bob's the bravest man in the
world.But I know that he, and the millions
like him, can't win this war without
money. My money? War Bond money.
When I buy Bonds, I feel I'm helping to
bring him back sooner.But there's another reason.
When Bob comes back, he'll need
money too, a lot of it. Money to tide us
over till Bob gets back into the swing of
being a civilian. Money to build that
house we both dream about. And money
to raise a family to fill it.So every bond I buy will give me
double value. It will do two jobs—one
now and one later. And as an old bargain
hunter, I just can't resist a deal like that!

FLORIDA POWER & LIGHT COMPANY

Keep Buying Bonds
